The business of installing mineral processing plants and bulk handling system since 1975. Specializing in the research, development, and manufacture of industrial stone crushing & screening equipment's. Equipped with intelligent and standardized and team of R & D, productions!

FHSCoin

Deep Sea Mining Trading and Marketing

Deep-sea mining is driven by growing global demand for metals like copper, nickel, and cobalt for renewable energy and technology, but faces significant environmental and regulatory challenges, including a lack of finalized exploitation regulations from the [International Seabed Authority \(ISA\)](http://www.isa.int)
